

Founder's Day banquet features Bob Clement

Democratic gubernatorial

By TOMMY TORLAY

Features Editor Bob Clement, who has been nominated by President Carter for the vacancy on the Tennessee Valley Authority's three-man board of directors, was the guest speaker at the 15th annual Alpha Tau Omega Founders Day In the University Center Ballroom

Saturday Feb. Braving chilly winds and snow flurries, about 250 people attended the banquet.

Accompanying Clement and his wife Mary, were State Representative and Mrs. John Tanner, (D) -Union City, and former State Representative and Mrs. Walter Bizzart of Lewisburg

Smiling and very boyish-looking at 35, Clement told

nomination. "I didn't want to be a several funny stories and jokingly blamed his loss in the spectator, I wanted to make a difference," said Clement Democratic primary to Jake Butcher on the "infinite wisdom of the ATO alumni because they told him to run." 'We need people who will take a chance in Tennessee and the United States." On the governor's race, Clement quoted the words of Winston Churchill when he said, "never give up." Clement was an ATO at UT

Knoxville. On a more serious note, Clement called for the younger generation to get "I was disappointed by the race and I was negative for awhile, but we all have got to "A lot of people depend on the safety and security of one job or position and are afraid to take a chance," he said.

keep trying and caring,' stated Clement. "About one third of the people in Tennessee between 18 and 30 years of age not registered to vote," said Clement gave up an almost certain re-election to the Public Scrvice Commission last year to run for the

He urged those who were not registered to vote, to do so and get involved

Concluding his speech, Clement told the story of a man who got involved, but never received credit for his accomplishments.

"Back in 1775, William Dawes was a simple, uneducated farmer who knew what to helieve," said Clement. When the British decided to march to Concord. Dawes was one of the first to voluynteer because "hc knew what he

was fighting for." Dawes and a man named Paul Revere were given the task of warning Samuel Adams and John Hancock in

Thursday, Feb. 22 at UTM

Concord. Although Revere was the first to reach Concord. Dawes arrived about a half an hour later and was institutional in warning the citizens of New England about the British, according to Clement.

"Dawes completed his duty, "Dawes completed his duty, but because of a poets whim, never got the credit he deserved,' said Clement il en ry Wadsworth Longfellow described Revere's ride in his famous poem "The Midnight Ride of Paul Revere"

Paul Revere. One man can make the difference and every man should try to commit himself to improving our country, **Clement** said

Bob Clement, former head of the I²ublic banquet Saturday Feb. 17 Clement, who ran Service Commission and recent TVA com-missioner-designate, speaks before the 15th annual Alpha Tau Omega Founder's Day

Religious cults discussed at recent 'Open Forum

By BARRY WARBRITTON Staff Writer

At this week's Open Forum, Adam liall, director of the Baptist Student Union, spoke on cuits. "Cuits are actually a counterfeit of a particular religion," he said. "We think of them primarily with regard

to Christianity, but there are cults of all the major Transendental Meditation. reilgions.' 'Cr Charles Braden has

The Way, The Love Family, The Alamo Christian Founda tion, and The People's Tem According to Hall, most cuits are centered around a particular person's inter-pretation of the Bible and some of them might even be considered as religious denominations by some peo-ple, but these cuits stray from the straight and narrow. "These are all centered around one man's interpreta-tion of scripture. There are probably between one and six million people involved in cults in the United States," Haii said. "I think that one of the things we see today is that there is a great deal of love and concern shown by people who are in the cuits and this is one of the things that takes young people into the cuits To me It's the most important thing about cuits. It is the counterfelting of the verse in John 14-35 where it says 'if you love the Father it will be known by the people around us by our love for the brethern That love fulfilis a need in young person's heart and life, ifall said According to Hall, this counterfelt iove permits the desertion of a brother when he develops a disease or afflic-tion that hinders his work for the cult Many cults invite a prospec tive initlate to a meeting similar to Open Forum, said Hail, where they discuss ways in which to better the world Religion is usually not menlioned In this first meeting. According to Hail the cult members invite the initiate to a sort of weekend retreat where he is constantly watched and continuousiy exposed to the cuit's doctrine. By the time the retreat is over, he

Conservation is the word

By STEPHEN WARREN

New Editor The name of the game is ENERGY CONSERVATION, and our campus is going to start playing the game if the newly formed UTM Energy Conservation Committee has Its way.

The committee consists of residence hali Resident Assistants, and David Beiote and Ray Montgomery of the Housing Department. The participating RA's are Robert Beasiey, Vonne Ortiz, Eiizabeth Hopkins, Tim Hayden, AManda Touchton, Ken Watkins, Serena Williams, and Tommy McGlown.

The committee is responsibie for the energy conserva-tion posters which are springing up on campus.

"The main thrust of our project is that of awareness, stated Dave Belote.

The committee has scheduid poster contest, an essay contest, and a dormconservation contest in order to make the campus aware of energy conservation

The poster contest is open to ali Current UTM students Ali entries must be submitted before noon of March 7, 1979 The theme for all entries ts "Energy Conservation in the

Residence Hali All posters must be 18" x 24 The en-trant's name, address, and classification must be tegibly printed on the back, in the up-per right-hand corner

There is no limit on poster construction Any materials may be used Any method of message conveyance may be employed Students may enter as often as they like.

The posters will be judged on ideas presented, neatness, and originality, the decisions of the judges will be final Posters will become the pro-

perty of the energy awareness committee

The first place winner will receive \$25. The second place winner will receie \$10.

"We're going to use the posters around campus," said Robert Beasiey. "It's more or iess an adverilsment scheme on our part to make the students more aware of energy conservation."

The essay contest will also have a first prize of \$25 and a second prize of \$10, and is open to all current UTM students

UT-owned state car issue was not handled logically

The recent state resolution passed by state lawmakers ordering UT officials to roll back pay hikes given to 29 top UT administrators in place of their state-owned cara could have been adverted by a more logical move on the part of the UT officiaia.

THE PACER

if the state cars were given to the UT administrators for official use why was a pay in-crease awarded to those who turned in their The two do not correspond with each cars? other The most sensible move would have been to increase each of the administrator's office budgets to include more money for travel ex-penses to use a car from Motorpool In this way the administrators would not get a flat amoun of money in the form of a pay raise to supposed iy pay for travel expenses using their personal car Granted it might be a problem getting a University-owned car from Motorpool on short notice, but it is assumed that administrative personnell receive priority in services provided by the University

If the UT administrators were hired with the understanding they would have a state car they should be provided one, but not necessarily one specifically assigned to them 24 hours a day The Motorpooi does not have a surplus of cars, but many days cars sit in the parking lot unused there is no way to know exactly how many cars will be needed on a given day although the cars are to be reserved several days in ad vance And if a car is not available the other option is to use a personal car and be reimbursed for mileage in these days of cutting back taxes and conservation of gas with predictions of future high gas prices it doesn't seem unjust to ask UT administrators to give up a personaliy assigned car

Insight

announcement by the Legislature's The Fiscal Review Committee to request abolish ment of all non-essential state cars was what instigated the exchange of UT cars assigned to administrators for the pay raise But who is to judge which cars are non-essentiai? To a very conservative person concerned with saving money any car could be considered nonessential If the state is to judge which cars are non-essential they must find out why the cars are being used and where they are going To do this would take an investigative department as a part of the Motorpool qualifying each request for a state car To do this would be rediculous and very time consuming if the number of cars available through the UT Motorpool is to be reduced by Tennessee lawmakers this might be necessary to insure each car to be used only for essential UT business

Black History discussed

During the formative days of this nation, a man wrote an awe insplring sentence hold these truths to be self-evident that all men are created equal

The Pacer holds by that policy and for men, read people regardless of color or race or other superficiality. Laat week was Black History Week, and, as it

has through the years. The Pacer goes again on record supporting that week. There are many reasons why The Pacer supports the

reasons why The Pacer supports the celebrating of Black History Week. One of them goes back to the creed ar-ticulated in the Declaration-that all men are created equal. For many years, not all men have been treated equally in this nation, some men have been denied even their own heritage-that method services the makes each drawn -that special something that makes each group of people wonderfully unique.

Black History is that time of the year set aside because we have not yet been able to treat all men as equals but are trying. And that effort includes educating the campus community about the black heritage, that special something that makes black Americans so very uniqu

The Pacer, realizing this, would like to sug gest a few things which might make the celebrating of Black History Week more meaningful to the entire campus community.

First, it should be a campus wide thing Everyone on campus, from highest to lowliest reshman should know that that week is Black History Week. Posters and stories and activities should remind all. Second, black students can be a driving force

behind this celebration of their herltage. They can raily behind the BSA and the Office of

Minority Affairs They should remember that these institutions belong to the black communi-ty and should be used Black students should be willing to pour their hearts, their very soul as it is into those organizations so that they will accomplish something truly memorable The world needs to be reminded again that black too Is beautiful even as Is red, yellow, brown, and white

But to even make a start, we need to reassess our thinking and doing it has been said by a few that the Biack History Week events were not meaningfui. It is not our purpose here to judge, but if they were not mean-ingful, then it is time to redo the Black History Week Idea

Next time around, there could be a real campalgn starting early with the pianning and preplanning. Committees could investigate more than one speaker so that in terms of get ting a speaker, there will be options. The BSA will then not be locked into hit or miss operationa trying to throw all its resources into one person

There could also be movics or filmstrips depicting great people who should have been in American history but, because of their color, were Ignored

Piays and music should also be included as well as poetry readings and creative dancing The black community is not culturally sterile so why act as though it is

With these ideas firmly in mind, perhaps when Black liistory comes back around again,

it will be truly a memorable event. And we will be that much closer to the idea so

beautifully articulated in the Declaration of in-

Education budget refuted

Although President Carter's proposed budget for the 1979-80 fiscal year would provide more financial backing for university-funded research projects. The Pacer feels that equal attention should also be given to the primary reason colleges and universities exist in the first place, namely teaching

According to Waiter Lambert, special assis-tant for federal relations for the entire UT system, Carter's proposed budget appropriates some \$500 million less for higher education than does the present budget. Most of this reduction will occur in the areas of student aid, institutional aid to UT's medical units library funding. Institutional research will be cut back to a somewhat lesser degree. The Pacer, while acknowledging the fact that some cutbacka may indeed be substantiated in an attempt to bring the federal budget to a more balanced condition, believes that any such cutback should be first levied on the research work being done by a university, and then the various student affected portions of the univer-sity. This statement is justified by noting that

With research, however, that does not hold true. UTM is a good example of a university whose primary emphasis is on teaching and not on research of various kinds.

This is not to say that research is not an in-tegral part of this country's higher education setup. Without research, it is highly doubtful that society could ever advance beyond the limitations of its present knowledge and insight into how the world operates it should also be said, though, that without adequate funds to get this knowledge across to the coming generations, such knowledge is of very little One complements the other This would inaure rate of knowledge increase, thus keep

mained open regardless of the severity of the weather. Also, approximately 3,500 of UTM's 5,000 students live within a mile of campus and attendance is normal when the weather is bad. Many students will play and drive in the snow anyway, so why shouldn't that energy be Center.

tion to The Pacer for the editorial concerning UTM's black news publication. Viewpoint, in the Feb. 1 Issue. As was pointed out in that editorial, The Pacer cannot "cater" solely to the black students' interests. Vlewpoint recognizes the fact that The To the Editor: Pacer cannot cover every black event or print every black article submitted Vlewpoint also recognizes the fact that there are black wrlters and even editors on The Pacer staff.

I was one of the 4,000 people On the other hand there has been a long standing complaint among the black students that even though articles of major interest to them are submitted by these writers, they are either confined to the back page or never printed at all much too often.

ing both aspects of higher education in a very efficient symbiotic relationship.

In conclusion, The Pacer would like it known that from a totally educational viewpoint, it would be better if the available funds could be increased instead of decreased. Since this apparently not be possible, however, the UT system should use discretion in the utilization of what funds it does receive in this way, the decrease could become only a minor obstacle on the road to a more informed society

Wizard's Words

Have you ever offered to Have you ever offered to help someone with something with the Idea that you were on-ly helping and then have it turn out that everyone suddenly had a test the next day, or had a deathly disease, or just plainly could not be found anywhere? What do you do about this? This is a question that 1 need an answer to because I enjoy helping people as much as I can and a lot of the time it ends up with me doing everything.

Don't get me wrong I really like doing for others and knowing that you are truated in a good feeling but it is really had when you get shouldered with a lot of nonacademic things while you already have plenty academic things to There is only so much time in one day for a person to do his personal things like eating. sleeping, going to class, taking showers and whatever else without having to worry about taking care of others.

The activities in the residence halls are a good example of what I'm getting at. The residence assistants, head residents, assistant head residents and members of the hall council do a terrific job of planning things for the dorm to do, while also taking care of all the work involved to make these plans happen. These people deserve some credit for trying to liven up their dorms and I would like to say "thank

you" for everything you've done

The ones who do not deserve any credit are the residents who just slt around in their room complaining that there is nothing to do in Martin. This does not apply to atudents who spend a lot of time studying. People with comments like "Martin is boring." this dorm never does anything" and "there is nothing to do in this town" should just atop and think about what they did to liven this place up, besides going to Hillary's and the Hourglass and getting drunk

Sure this is fun to do and guaranteea a good night's sleep but there have got to be other things to do on campus. Everyone is different. No two people have identical thoughts, if there are any please come to see me. With ail the atudents on this campus there just have to be some good ideas for ways to pass the

time If you volunteer to help so meone with a project, please keep your promise. The worse feeling in the world is for a person to depend on someone elses help in the beginning and find out in the end that they never meant to help. If you can't make it because of a real test, or illness try to let so-meone know so that someone

else can be found to heip If you want something to do

ARS editorial rebutted

Opinion

I would like to take this opportunity to reply to last week's editorial concerning the Atlanta Rhythm Section's cancellation of their February 3 Concert. What was said about ARS's decision not to come makes no difference to anyone, the band does not read The Pacer and no one or campus cares about your oplnion of them. But waht was said about SGA's role in the cancellation does matter to

To defend what happened that night, I would first like to state that a matter of this nature does not fall into the .category of "normal pro-cedure". This was the first time that this had happened to this administration and the promoterwe were working with. Neither the promoter no the Cabinet bad any idea that ARS was not coming until after the crowd had gathered. When we were notified, there was a small delay, but not because we were acting in a "highly irresponsible and un-complimentary manner." We were meeting with our pro-moter, a representative of the booking agency, the police, and a representative of ARS, trying to rationally and responsibly decide what the best thing was to do in the situation. We were also waiting for a phone call from ARS to get a committment for aoother date.

After a decision was made. our promoter decided to make

the announcement As for the stoned girl, I have no idea who she was with and I think that that part of your editorial

bordered on the absurd All of us did realize the 'potential explosiveness' the stluation and, in mild terms, were scared to death

I do believe that we avolded iot of hard feelings by waiting a few extra minutes for a committment from ARS for the next week before telling people that there was not going to be a concert that night. The only ill will feit at this point is by the SGA cabinet toward the Pacer You

do not reailze how much time was spent Monday, Tuesday and Wednesday after the cancellation trying to get another show together, quiring a new opening act, figuring costs and expenses. The majority of the cabinet said to heck with classea those three days because they cared enough to pick up the piecea

and start all over. If any kind of editorial is heeded, it is one praising and thanking the people who helped so much after a disap-pointing and disenchanting weekend SGA V.P. Mike Turner and

his assistant "Red" Myers worked constantly trying to get the show back on its feet. The information desk staff and Dr. Philip Watkins and his Secretary Linda Jones were there when we needed them; they ail should be

by Mark Hayes publiciy thanked.

year

The person responsible for the editorial is the only one who I will not thank The editorial said nothing positive or constructive In fact, that editorial was about the only thing that was "highly ir-responsible" I'm sorry, but I was disappointed and disgusted by your editoriai You have truly picked a fine way to thank people who worked so hard for credibility this

departments.

Do you remember the days double deailng and violence Also like the author's works, it glosses over most of the neighborhooda and desolate alleys for your local movie theatre, and once safely in those confines you would be characters so that they do not reaily stand out as people Most of the characters in the film are superficial stock thrilied by daring adventures of men and woman thrown inheroes and villians, except for the traitors who are supposed to be somewhere in between. Since they aren't stock villians and heroes naturally you know that they have to be the classics. The bad news is that traitors. Part of the fault here seems

Force 10 From Navaronne Reviewed

to be in the screenplay Though it does manage to capture and desperate pace for the most part that the author's noveis delight in, the screen writer also makes some at tempts to lighten the at mosphere with a good deai

SGA Dateline

Last week's SGA Dateline may have been a little mlsieading. First of all, there is not, nor has there ever been a split in th SGA cabinet Several people have com-mented on how well this cabinet has worked and the high degree of cooperation among the cabinet members. However, there is also healthy disagreement Last week's ar ticle may have led some believe that a split had developed or was in the process of developing. This la not the case. Moreover, I think that all of the people in the presenl cahlnet feii very good about what successes we have had and how smoothly the whole affair has gone. Furlher, I think that the students

campus are generally

by Fred Maxwell

So let me close this piece by

urging everybody on this campus, black and white, to

get up off your rumps, break

ministration with the possible exception of what happened with Atianta Rhythm Section, which was not our fault. So for the record, let me state that laat week's article

by Mark Fowler

pleased with the current ad-

was not a deatribe against the present administration by a disgruntled member. My in-tention was this: to run a new, different viewpoint up the flag poie and see who would salute. No doubt, some agreed, and some disagreed. But in any event, some dialogue has taken place and this may bring about some new direction In the course of the SGA. There is one other point I

would like to make regarding the last dateline; and that is lhis: What was printed was simply my opinion and feelings about some lasues that SGA ought to address. Perhaps thal could have been better addressed in another way, My reason for doing it in this fashion was to create some discussion about SGA among the students in what 1 felt was the most effective

Ultimately, the final choice about which direction SGA should take is up to the students

Cows, Culvahouse, Hillington

Dairy farm cows enrolled in hay and hull experiment

By MARCELLA STRAND Staff Writer

Twenty-four dalry cows at the UTM dairy farm are enrolled in a sixteen week experiment to determine the effects of hay and pelieted and unpelleted cottonseed hulls as a source of dietary fiber on milk production and it's fat content, according to E.W. Culvahouse, associate professor of dalrying and project director

'Feeding routines have changed in the last ten years." Culvahouse sald. "Complete blended rations is one answer

New newspaper

to decrease labor costs. This is especialiy important because adverse weather conditions

often are a problem to harvesting hay," he said. The 12 Jerseys and 12 Hols-ins are assigned to the teins respective treatments at random within age and breed. All the animals get corn sllage. For roughage, eight get hay, eight get pelleted cottonseed huils with a grain mixture, and eight get unpelleted hulls

two weeks." Culvahouse said 'Mlik production is compared as well as the percentage of

pecial Assignments Editor Danny Lannom. UTM graduate, Rotary Fellow, and former president of the UTM and beer drinking unity

Lannom, who spent last year on a fellowship in Ger-many dropped by The Pacer office to share some of his ex periences. If a will do this ex-the some of the second secon periences life will do that again next Thursday evening March 1 in the University March 1 in the University Center, according to Dr George Kao, political science club facuity advisor The Political Science club is spon-

soring the lecture. Arriving in Germany in 1977, Lannom said he ex-perienced no real culture

shock as most people would "I had to learn something of the bureaucracy to know what forms had to be filled out and what offices to visit, but I had no real cultural shock because I had people who helped me out," Lannom said. Although hc experienced no

culture shock, he did note some differences between German and American university students.

"They are much more politicized," Lannom said.

He explained that students were heavily organized into political groups with concerns ranging from campus issues to those affecting the nation. They range from a com-munistic leaning to the Christlan Democrats, which Lan-nom said is a right wing organization. Lannom, who is entering

law school this term, had his

share of orgaoization -- mostly classwork The classes were on what he called a semester system, and he took 20 hours of work He attended the Political Science Club, found Darmssadt Technological one German university to be a University as well as another Darmssadt Technological Mecca for political activism school where he had refresher courses in language Mostof his

plained that in a lecture class students simply attended class and took notes in the seminar classes--**a very demanding class"--according to Lannom,-students held discussions, did lots of assign way of working he said ed reading, and wrote term papers Neither type of class When students in Darmstadt

got together, it was probably at what we would call the involved testing. Each met for one and a half hours about one what we would call the a week and students were pretty much on their own.

"The dorms are on the other side of town," he said

His dorm was more like an apartment where four students shared two private handling the chemistry. ar chitecture, and blology while the other campus handled everything else it was an ex-tensive school of more than bedrooms, kitchen and bath 10,000 students

Each campus had its own university center "They were more just cafeterias and offices for stu dent services, no TV rooms and

ail that," Lannom said. Taik turned to food, since university centers served that over there. Lannom said there were two or three lunch lines, for example They each serv ed different meals.

'All you dld was pick the line according to which meal

University Center

"Darmstadt had two cam puses" Lannom said, one side best," Lannom said He indicated too that lunch was rather cheap, costing around 80 cents A typical lunch consisted of roast beef, potatoes, soup, and salad

You could get bottle of beer sold just like coke During lunch, you could get beer from the tap in the lunch line," Lannom said

Pacers begin stretch run of a disappointing season

By DANIEL SCATES Sports Writer

The UTM Pacers are heading down the stretch run of their 1978-79 basketball season

Even though it was another disappointing week as two more losses were registered, the week ended with a victory over Columbia College Mon-day night by a score of 77-60.

Don Hubbard led the Pacer scoring attack with 17 points, and made a jumper with 8:12 left to give UTM the lead for good at 52-50. UTM trailed, 41-

40 at the half Ed Littleton pitched in 15 points to aid the Pacer cause, and Jun Ogle of Columbia was high point man in the game, with 22

The Pacer's problem in the other two games was that they could not put two good haives together Thursday against North Alabama, UTM ran up a nine point lead in the first haif only to have the Lions come biistering back to take a one point haiftime lead The strong bench of North Aiabama was just too much to overcome in the second half as

Put It Up! **'Roving** madcaps' ski into adventure

another adventure with those "roving madcaps" of the Adventure Club. As the curtain rises and the

The Adventure Club had returned to their oid haunt of Beech Mountain, North Carolina Their day of skiing went without broken bone again, but many falls were seen.

"We had a chance to go night skiing on this trip," said Kenny Allen, president of the club

"The slopes looked really nice all lit up. We also went ice skating, which was a change of pace."

The price of the trip was \$50. Not as many members went on this trip so the group rates did not appiy.

"We almost got snowed in before we could get home. There were seven inches on the ground and the roads were very slick when we left," Allen said. The trip, in Allen's words, was another success for the group of travelling explorers.

"We are still planning on going hang gliding during the Spring Quarter. We are also planning on backpacking trips during next quater," he said. A canoe trip is being planned for spring break but the final arrangements are not finished yet

Anyone who is interested in joining the club on any of their trips should contact Kenny Ailen. Ail are weicome.

"We are trying to do new things. We would like to go parachuting, if we can find a place," Allen stated.

Get It Off!

Sports Editor Alack and alas, 'tis once again iate February, the month of valentines and tailied score sheets. Un-fortunately, this February also means broken hearts for the UTM basketball squad. With two games remaining In the season, the Pacers hold

a 7-17 overall record, and a 2-12 standing in the Guif South Conference, Alack and alas, maybe it's a good thing that it's late February and the season's almost over.

Then again, that is unfair criticism of a team racked by injuries to key players, and playing with a very young, mostly inexperienced squad. This is not meant to be an excuse for the basketball team; the Pacers don't need any excuses. Besides, they're all blgger than I am, and perfectly capabic of standing up for themselves. However, these are the facts, and that's the way the basketbaii bounces

Also in the process of win-ding up a season are the Lady Pacers. Their record is now 9 12, afier a loss to MTSU, 73-69. last night.

The Lady Pacers' finai game is here. Feb 24, at 1:00 P.M. against Eastern Illinois University. According to Bet-tye Giles, Director of Women's Athletics, the match is free to all University employees and community friends, and your attendance will give the team a morale boost

A boost that's aiways helpfui, no matter when it comes, so get on out and support your favorite Pacer teams, and be proud of the fact that we have them. Moving right along, all of

Spectrum track to the main floor followed by helicopter rappels from the catwalk up near the ceiling approximately 70 feet down to the floor

According to observers, it was an Interesting sight to see. Personaily, I think it was even more interesting standing or the outside of the catwaik connected by a pair of ropes wrapped around a metai ovai called a snaplink, trying to figure out where on the three inch wide iedge to put your

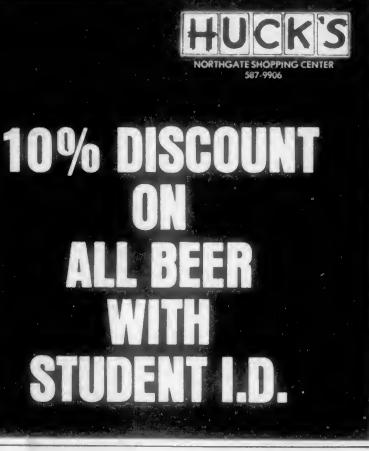

feet without slipping! Now a brief message from Randy Dodd, resident writer and outdoorsman: There will be a meeting of ail coon hunters in the area at Gibson **County Courthouse in Trenton** tonight at 7:00 p.m.

State Representative Ray Davis of Milan will be presen to discuss legislation which affects coon hunting in Gibson County. All coon hunters and interested persons are urged to attend.

Also, anyone with furs or hides to seil should do so Immediately. The deadline for buying fur is around March 1 and the prices are dropping steadliy. The Recreational Sports

lepartment is making plans for more activities in the "Ail-Niter" arca. In the fail of next year, the possibility of a "Fall-Niter" is being discussed, with different activities scheduled in the PE Complex until midnight.

The second annual "All-Niter" may make an appearance next winter quarter, from 8:00 p.m. to 8:00 a.m., complete with even more, and varled, activities. This will robably be followed by a "Spring-Niter", another haif-the-night jamboree. All of the "Niters" will have

The Pacer, Martin, Tennessee, Thursday, February 22, 1979 'Red-legged' spider proves unusual pet

By SUSIE STEPHENS Staif Wrher

Children sing of the itsybitsy spider that went up the water spout However, Rex Paschall Puryear senior at UTM has no interest in Itsy-bitsy spiders. Not when he can play with a four-inch iong. fuzzy red-legged tarantula

Paschall, the son of Mr and Mrs Winfred Paschail of Rt 2, Puryear, bought his pet iast Christmas as a gag gift for June Rasmusse, a senior from Biuff City And, although she has since grown fond of the spider, Rasmussen had no desire to keepthefuzzy-iegged glft. So, Paschall decided to keep it for himself.

The decision to keep the tarantula was one of the best ones i have made," he says. Besides being an unusual and interesting pet, it is a good topic for conversation and heips me meet people.

The senior business administration major admits there are several unexpected advantages to owning the only domestic tarantula on cam

"Whenever i want to watch a certain program on the television in the dormitory lobby, 1 just bring the spider with me," he said "And for some mysterious reason, 1 always get to watch whatever

Spring fashions are contrasting' styles

Staff Writer

Sophisticated by day, dazziing by night is the spring fashlon forecast according to McCail's beauty editor. Neat, clean lines and very

feminine body-conscious clothes have replaced the tossed-on, slouchy garments of past seasons.

"Many designers bave taken their inspiration from fashions worn several generations ago, but the new clothes do not mark a return to the past," the beauty editor stated.

Oscar de la Renta, famous designer, says there is nothing 'retro' about these ciothes. "They're just made the way

good clothes used to be. It's iong overdue," he said.

The suit, still the winning daytime look, is more elegant than ever. Even the woman who resisted buying a sult last fall may find herself wearing one this spring.

We should look for short narrow jackets and slim, figureflattering skirts. The leading designers agree that suits will look better nipped in at the the fashion experts.

High Flier

By MARCELLA STRAND Staff Writer

Like most college professors, Dr. LeeRoy W. Klesling, associate professor and chairman of Occupational Education at UTM, believes in higher education. His hobby flying Cessna 150 and 172 airplanes. Dr. Kiesling's hobby stems from a life-long desire to "do something different." In the early 1950's while attending San Angello Junior College in Texas, he found the life of a rodeo clown to his liking. In 1962, still looking for something different to challenge him, Dr. Kiesling became a football official. For the next 15 years he served as a high school football official in Texas, Oklahoma, Tennessee and Kentucky. His interest in flying dates back to 1958 when he scraped to gether enough money for an introductory flight lesson. "It was something I always wanted to do. However, a lack of time and money kept me grounded." Dr. Klesling came to UT Martin In 1975. "I found the money and and the finoney and made the time to take flying lessons from Lloyd Butler, a former chief flight instructor with Taylor Aviation at Everett-Stewart Airport In Union City.

i want on the set According to Paschail, the tarantula is a safe, clean and mical pet.

"Tarantulas are friendly and mild-manared, it is extremely clean and only cost me \$1 79 last year for some special food." Paschait's tarantula ilves in a bubble terrarium and eats almost anything live he feeds it

Except humans "The tarantula is the most misunderstood spider there is because of its size and appearance," he says. "It will only eat ilving things like grasshoppers, other spiders and flys. its bite is perfectly harmiess to humans."

The tarantula is a native of the hot, dry cilmate of the southwestern states. According to Rex, the more common brown-legged varlety cost about \$12

"Mine is of the less common, red-legged variety, he says, "and it cost me a little more." He paid \$20 for his unusuai pet.

Just as the itsy-bltsy spider continues to ciimb up the water spout and fascinate chlidren, Rex Paschaii's tarantula wili continue to fascinate students, faculty and staff at UT Martin and make new friends for him wherever he takes it.

flage light SREB report complete

Black representation low

Black representation on col lege faculties in the South's public institutions continues to be low, compared to the black share of the region's total population and of college enrol ment, according to a re cent survey by the Southern Regional Education Board SREB

Partially supported by the Ford Foundation, the SREB survey of full-time faculty in Southern public higher educa-tion concludes that "it will be very difficulty to increase black representation on col lege faculties in the region' until there is an increase in the number of advaned degrees earned by blacks in the So and until black graduate students become more widely dispersed among disciplines other than education. The SREB study also con-

cludes that even if only a small portion of the pool of new black doctorates takes jobs in industry and government or in two year colleges. 'the remainder would not be sufficient to maintain the pre sent level of black represenia tion in four-year institutions, much less to increase it."

Here are some of the highlights of SREB's report. -Eight percent of the total faculty in the South's public institutions isblack, compared to a black share of 18 8 percent of the South's population and 15.1 percent of Southern collegiate enrollment.

-The most striking concen tration of black faculty com esin the field of educationone-sixth of all teacher educa tion faculty in the South's fouryear public institutions are black, and one-third of all black faculty in these colleges and universities teach educa tion subjects. -Blacks are relatively well

represented among facuity in library science, home economics, and public affairs (which includes social work)

-Blacks have lower than average representation in archltecture, accounting, engineering, and the physical sciences.

Aimost three-fourths of the black faculty in the region's four-year public institutions are employed in the predominatly black institutions

-A black faculty member is less likely to be tenured, to hold the rank of full professor.

and to have earned a doc-torate, than is a while faculty member

Over all four year public colleges and universities in the South, doctorates are held by 37 percent of black faculty compared to 65 percent of total faculty

The representation of black faculty in two year institu-tions (7.2 percent of total facuity) is even lower than in four year institutions, despite the fact that blacks comprise a greater proportion of iotal enroliment in two-year than in four-year school The report compared data

on new doctorates against the survey's results for areas where blacks show under representation on Southern facuities, and concludesthat the number of such degrees earned by blacks in Southern region is not sufficient to augment the current representation of blacks on the faculties of the region." Dr Galambos notes that the

average, and in which enrollments are declining

The SREB survey includes data on the race and discipline of 97,000 four-year and 35,000 two-year full time faculty

members in the 14 Southern states for 1976-78. Four-year cent, at "black" institutions

As noted in the highlights above, there is a high concentration of black faculty in teacher education-twice as many faculty than the average black representation in al fields of study. (See

Among these other diciplines, there are impor-tant variations within sub-

secretarial studies as com pared io the entire field of business and management Nursing, a subfield of the health professions, has a greater representation of black faculty than is irue for the field in its entirety tSee Table i, on back of page three)

The increasing number of blacks earning master's degrees may provide a supply whereby black representation might be strengthened in the region's two-year colleges, where a master's degree is the norm for faculty Another re-cent SREB report, Degree Output in the South, 1975-76: Distribution by Race, showed a concentration in teacher education reaching 75 percent of the 8,900 master's degrees earned by blacks -- leaving on ly 2,200 degrees available across all other disciplines, one-fifth of those are in public affairs (including social work), another field in which blacks are already strongly represented

Dr. Galambos notes that the market for college faculty is a national one, so that supply of faculty, by race and discipline, in 14 Southern states provides only a partial view of the total supply within the nation. "However," she writes, "the distribution of faculty by race and discipline in the Southern region is il-lustrative of the national pic-

'American Farm' coming to UTM

The Tennessee Committee for the Humanities has approved a grant to UTM which will make possible our having for three weeks "The American Farm", a large photographic history exhibit of American farm life. The display will be on cam-

pus in late April and early May and will coincide with the annual History Roundtable which will be partially funded by the grani and which will also concern American and Tennessee farm life.

In addition to the California Historical Society's "The American Farm", there will be a photographic section call-

Film series currently in progress at UTM

By BEVERLY BOMER

Assistant News Editor The English and communications and fine arts departments have a curricular series of films that is currently in progress. The film series was derifed from Vanguard films, the oldest on eampus founded by Bill Snyder

Different films are shown each quarter. This quarter the English department is presenting adaptations to drama such as "King Lear" (Brook version) and "Three Sisters" (American version).

Three more films are scheduled for this quarter: "The Pumpkin Eater." Feb.13; "Cat on a Hot Tin Roof," Feb. 20; and "Long Day's Journey." March 6

"We're trying to work the films into the freshman program of studies. A lot of freshmen are encouraged to attend these films," James Andreas, director of the English film series, stated. Gary Steinke, director of the said.

The films are shown on Tuesday nights In the Norman Campbell Auditorium at p.m. The admission is 75 cents

Approximately \$150-\$200 is earned each quarter. These profits are used to bring a speaker to UTM who will address the freshman class.

Phi Epsilon Omleron is sponsoring a panel discussion entitled "The Test Tube Baby and Artificial Insemination" on Tuesday, Feb. 27 at 5 p.m. In the Gooch Hall auditorium.

discussion

Panelists for the discussion include Rev. Tom Hughes, an Episcopal priest, who will represent the religious viewpoint, Mike Malone, and attorney-at-law, who will represent the legal viewpoint, Dr. Phillip Watkins, dean of Undergraduate Life, who will present the genetics viewpoint, Roy Lawrence, a gynecologist, who will represent the medical viewpoint, and Judy Waklm, dean of Nursing, who will present the parent-child relationship viewpoint.

Moderator for the discussion will be Jean Erwin, professor of Child Development and Family Relationships at will be open to all interested
